Experience

Mar 2024 - Jul 2024

Brestgazoapparat SP I Ardzanikidze Street 22, Brest, Belarus

Junior Java Developer (hybrid)

- Developed and maintained REST APIs for internal logistics and inventory systems
- Used Java, Spring Boot, PostgreSQL; integrated with 1C
- Improved data validation, optimized SQL queries, participated in reporting automation
- Gained hands-on experience in enterprise backend development

Nov 2023 - Jan 2024

EPAM Systems I Respubliki Avenue 1/2, Brest, Belarus

Junior Java Developer (hybrid)

- Focused on Java Core, Spring Boot, Spring MVC, and Spring Data
- Worked with SQL, JDBC, JPA/Hibernate, and relational/NoSQL databases
- Applied design patterns (Singleton, Factory, Observer) in project work
- Used Maven and Gradle for build automation and dependency management
- Built a strong foundation in scalable backend application development

Nov 2022 - Aug 2023

Alfa-Bank Belarus I Surhanava 43/47, Minsk, Belarus

Junior Java Backend Developer (remote)

- Participated in redesigning the customer support system for the mobile banking app
- Developed backend services using Java and Spring Boot
- Built a Telegram bot and internal web interface for support operations
- Implemented integration bridge between internal tools and services
- Gained experience with microservices, messaging, and cross-system communication

May 2021 - Now

Self-employed

Open Source Developer (remote)

- Developed and maintained open-source projects including Java and Kotlin backend services, Telegram bots, and web applications.
- Built and supported APIs and scheduler services for project tracking tools.
- Gained experience with CI/CD, Docker Compose, and security frameworks
- Contributed to cross-language projects involving Rust, Python, and TypeScript

Projects

File2Link

Your Reliable File Sharing and Storage Assistant!

Repository: [farneser/file2link](#)
Stack: Rust, Axum, Teloxide

Cloud File Storage

Multi-user file cloud system with S3 storage

Repository: [farneser/cloud-file-storage](#)
Stack: Spring, Thymleaf, Minio, S3

Task Tracker

Simple project management system

Repository: [farneser/task-tracker](#)
Stack: Spring, RabbitMQ, React, Postgresql

Lab work system

The site of handing in and laboratory works

Repository: [toninety-one/ToNinetyOneDocker](#)
Stack: ASP.NET, React, Docker, SQLite
